

Chocolate and Red Wine

Verse:

My eyes on you all the time
An addiction I can't subside
In search to distract my mind
Something to relax tonight

Last time you left me dry
I wanted more of that vintage style
And melting in your arms
You drank me up it drove me wild

CHORUS:

Oh Oh Oh oh
Won't you stop by
For chocolate and red wine yeah
Won't you say hi

I got chocolate and red wine
In the moon light come say hi

Yeah oh

I got chocolate and red wine in the moonlight
Till we're satisfied yeah

Verse:

My minds on you all the time
The taste of you I can't deny
waiting for your reply
Alleviate my craving now

Last time you left me dry
that vintage style, that classic smile
And melting in your arms
You licked me up it drove me wild

CHORUS:

Oh Oh Oh oh
Won't you stop by
For chocolate and red wine yeah

Won't you say hi

I got chocolate and red wine
In the moon light come say hi

Yeah oh

I got chocolate and red wine in the moonlight
Till we're satisfied yeah

Bridge

Last time I was with you
I said I never look back
I called all my sisters and told them I was done
I can't help but dwell on
All the love we did have
Now I just decided that you're just to fucking fun

You're just too much fun

CHORUS:

Oh Oh Oh oh
Won't you stop by
For chocolate and red wine yeah
Won't you say hi

I got chocolate and red wine
In the moon light come say hi

Yeah oh

I got chocolate and red wine in the moonlight
Till we're satisfied yeah

Stay in Line

Verse

Flowers, towers, after hours
Staying at night and through the day time
Count me out of Sundays plans cause
Friday and saturday are all mine

Brunches, lunches, seeing cousins
Is cool but doesn't make me shine
Whiskey sours deep house showers
Is how I wanna spend my life

And it's alright

Pre chorus

Ooh are you coming with me
Can't you see this new reality oh
Ooh are you coming with me
Can't you see this new reality

What do I get for staying in line
It's my time baby its my life
What do I get for staying in line Ima start a new path Ima set it right

See this Through

Verse 1:

Committing is hard
Invisible scars harden my heart
I want to be open to love
Be with someone
But I'm good by myself

Pre chorus

It's okay to be alone
That's what they don't know
They don't teach you

But love can be beautiful
Trust is attainable
Just follow what your soul tells you

Chorus

I don't wanna walk away from you
I wanna see this through
I really can't get enough of you
I wan't to see this through

I can't get enough
I can't get enough
I don't wanna walk
I don't wanna walk away

I can't get enough
I can't get enough
I don't wanna walk
I don't wanna walk away

Verse 2:

Finding a rhythm with someone new has it's strains
Are they still entangled
Or is she ancient history
Will it cause me pain?

Pre chorus

It's okay to be alone
That's what they don't know
They don't show you

But love can be beautiful
Trust is attainable
Just follow what your soul tells you

Chorus

Doing things and sayings things
I push away the good beams of light
Of light
Past ruins present times
Taints what you find
But rise above

Who am I

Verse 1:

Thought you knew me,
Know I'm hungry for it, for it
Can't see through me
My eyes are innocent
And full of tricks

What you into,
do you like being hurt?
Just a smidge?
I know sharbari,
You won't be sorry for this, little sin

Pre chorus:

Ooh ooh have you fall to your knees
Ooh ooh have you beggin', beggin' please

Who am I if I'm not fucking with you
Who I am if I not loving on you
Who I am if I'm not lying to you
Who I am, I'm just doing what I do

Verse 2:

Call me darlin'
I see you fallin' for it, for it
Body's callin',
from your toes to your lips, your lips hmm
I'm hot and cold, it's rough I know but you, you like it
Keeps getting harder
Even after we finish, too good of fit

Pre chorus

Balance

Verse 1:

Breath in deeply
Such an uncomfortable state I'm in
Feel the burn, on my skin
Exhale, release
Standing in place I'm strong today
Will it, though, stay this way?

Pre – instrumental

Chorus:

I'm trying to find a balance
Money beauty wealth
I'm trying to find a balance
Ooh can't you tell
Loss of words, I'm out of time, it's bigger than my self
I'm trying to find a balance
It's a human spell

Verse 2:

Get rest deep sleep
Ruminating through the day
Was I good? Did I slay?
Make sure I made peace
Comparing myself to who?
Should I be looking out for the greater good?

Pre chorus

Chorus

Instrumental break

Bridge:

I looked around I asked the wise
What's the right compromise
Oh tell me...

Work too hard and jeopardize
What truly matters in life
The ones who adore me
